Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued. Our AP US History Exam study guide does

not contain filler or fluff, so you can work through the guide at a significantly faster pace than other AP US History review books. By allowing a student to focus ONLY on those concepts that will increase their score, study time is more effective. Research Questions: To what extent does using Cornell Notes while students are reading their required weekly chapter increase their AP format test scores? (1) How does the use of Cornell Notes help them recall specific details that will help them distinguish between similar answers on multiple choice questions? (2) How does the use of this strategy affect their ability to support their essay statements with facts? (3) How does the use of Cornell Notes impact my students' attitudes towards the effectiveness of their study time and their test taking capabilities? Research Activities: Context: This intervention took place with all 16 of the students in an Advanced Placement (AP) United States History classroom; one student was a 10th grade student who had met the 10th grade history requirements by taking summer classes at a community college, and the rest of the students in the class were in 11th grade. This intervention was

conducted in a medium sized high school (circa 2000 students) in a small city in central California. I was not the teacher of record in this classroom, but I collaborated closely with the class's teacher, who has had 30 years of experience, including several years teaching AP U.S. History. The demographics of the class approximate those of the school, with 8 Caucasian students, 7 Hispanic students, and 1 African American student. Only one student had taken the CELDT test and was Re-designated as English Proficient (RFEP) in 2003. He had no apparent difficulty with either comprehension or expression in English, and I do not believe his language background affected his performance during the intervention. Methods and Data: Before my intervention, I administered a survey to the students that ascertained their study habits at the time. The primary assessment that I used to examine students performance was the AP format tests that the students normally took about once a week. After collecting initial data on the multiple choice and essay sections of one of these tests, I then taught them how to use Cornell Notes, a structured note-taking method which involves dividing a page in-

to two columns and reviewing notes a few times. This consisted of an initial lesson with direct instruction on the method, in class guided practice, and time in class for independent practice. The students were instructed to finish taking Cornell Notes on their own when they completed that week's reading, and they kept them to use as a study guide until turning them in at the start of that week's test. Students were given shorter follow up lessons to reinforce parts of the note-taking method that seemed to be lacking after students turned in their first full set of completed notes. Multiple choice and essay portion test scores were collected during and after the 3 weeks that students were required to take and use Cornell Notes. Students were then given a survey after the intervention to determine if they felt that using Cornell Notes had helped them and to discover how closely they had followed the note-taking method when working on their notes independently. Results: While individual student performance varied, the aggregate performance of the class did not change significantly during the course of the intervention. The class average of multiple choice section test scores went down

slightly (just over 1 percent), and the class average of essay section test scores went up slightly (under 2 percent). There are so many other factors that may have affected the students' performance that such small changes cannot be attributed to the intervention itself. However, most students expressed on the post-intervention survey that they felt that using Cornell Notes helped them. These opinions did not correlate with student achievement on an individual basis, but several students said they intended to keep using them despite the fact that they would no longer be required for class credit. Grade Level: 11. Data Collection Methods: Teacher-made assessment, Observation - Field Notes, Survey - Attitude, Survey - Self-assessment. Curriculum Areas: Social Studies - United States History. Instructional Approaches: Reading - strategies, Study skills.

The original academic text is fully adapted by renowned curriculum experts Debbie

Reese and Jean Mendoza, for middle-grade and young adult readers to include discussion topics, archival images, original maps, recommendations for further reading, and other materials to encourage students, teachers, and general readers to think critically about their own place in history.

War, Terrible War: Supporting Common Core with A History of US offers classroom lessons adapted from curriculum developed by the Johns Hopkins University Talent Development Secondary (TDS) program to accompany Joy Hakim's award-winning 10-volume series, A History of US. These lessons accompany volume 3 of that series, War, Terrible War. The lessons provide opportunities for students to closely examine challenging nonfiction text (including primary source documents), engage in collaborative discussion and team learning activities, and create a variety of written products. They align with CCSS ELA Reading Standards for Informational Text 6-12 and Reading Standards for Literacy in History/Social Studies for grades 6-12. Several lessons feature close analysis of documents listed as exemplars in CCSS ("O Captain! My Captain" is a 6th-8th grade exemplar; Abraham Lincoln's Second Inaugural Address and Gettysburg Address are cited as 9th-10th grade exemplars.) The informational text overviews

for lessons in this volume are written on approximately an 8th-9th grade reading level. Primary source documents often present challenging vocabulary, so the lessons provide additional scaffolding suggestions for these readings. All materials needed for the lesson are included in the Teacher's Manual and Student Discussion Guide. Teachers can select lessons from this volume of War, Terrible War: Supporting Common Core with A History of US based on the time period being studied in students' history/social studies classes or on themes in the fiction they are studying. For example, the study of *The Killer Angels* by Michael Shaara (a 9th-10th grade exemplar) may be followed by Lesson 7, "The Gettysburg Address." Students reading accounts of children in war such as *Anne Frank: The Diary of a Young Girl* would benefit from analyzing primary source documents about children in the Civil War by studying "The Children's War" (Lesson 4) or "A Girl's Memoir of War" (Lesson 5). Novels dealing with enslavement or civil rights could be paired with nonfiction readings in the lesson "Black Soldiers" or "Personal Accounts of Slavery." This curriculum provides multiple opportunities for English

Language Arts or history/social studies teachers to fulfill CCSS mandates with challenging, engaging lesson plans.

Now part of the HBO docuseries "Exterminate All the Brutes," written and directed by Raoul Peck 2015 Recipient of the American Book Award The first history of the United States told from the perspective of indigenous peoples Today in the United States, there are more than five hundred federally recognized Indigenous nations comprising nearly three million people, descendants of the fifteen million Native people who once inhabited this land. The centuries-long genocidal program of the US settler-colonial regimen has largely been omitted from history. Now, for the first time, acclaimed historian and activist Roxanne Dunbar-Ortiz offers a history of the United States told from the perspective of Indigenous peoples and reveals how Native Americans, for centuries, actively resisted expansion of the US empire. With growing support for movements such as the campaign to abolish Columbus Day and replace it with Indigenous Peoples' Day and the Dakota Access Pipeline protest led by the Standing Rock Sioux

Tribe, *An Indigenous Peoples' History of the United States* is an essential resource providing historical threads that are crucial for understanding the present. In *An Indigenous Peoples' History of the United States*, Dunbar-Ortiz adroitly challenges the founding myth of the United States and shows how policy against the Indigenous peoples was colonialist and designed to seize the territories of the original inhabitants, displacing or eliminating them. And as Dunbar-Ortiz reveals, this policy was praised in popular culture, through writers like James Fenimore Cooper and Walt Whitman, and in the highest offices of government and the military. Shockingly, as the genocidal policy reached its zenith under President Andrew Jackson, its ruthlessness was best articulated by US Army general Thomas S. Jesup, who, in 1836, wrote of the Seminoles: "The country can be rid of them only by exterminating them." Spanning more than four hundred years, this classic bottom-up peoples' history radically reframes US history and explodes the silences that have haunted our national narrative. *An Indigenous Peoples' History of the United States* is a 2015 PEN Oakland-Josephine Miles Award for Excellence in Literature.

They denounced the kind of reformation proposed by Luther, Zwingli and Calvin as a halfway affair. They believed in a national state church no more than they believed in the Roman church. To them religion was the intimate concern of each individual soul, and the church was a voluntary society of the regenerate, who had been saved by faith in Christ and were living obediently to Christ's principles.

This is not just a story but a life beautifully made. Our daughter Kelly had just graduated from UNR in Reno, Nevada, and was just hired and had worked for the Washoe County courts. A bride of just four months to firefighter husband, Darin. They had just bought a new home and were just out for a walk, enjoying a beautiful sunset, when it all just ended because a thirty-nine-year-old man had just been partying like a rock star. Where is justice? Where is God? Finding God in the midst of tragedy is like ET following Reeses Pieces into an unfamiliar backyard.

This resource book is designed to assist teachers in implementing California's history-social science framework at the 10th grade level. The models support implemen-

tation at the local level and may be used to plan topics and select resources for professional development and preservice education. This document provides a link between the framework's course descriptions and teachers' lesson plans by suggesting substantive resources and instructional strategies to be used in conjunction with textbooks and supplementary materials. The resource book is divided into eight units: (1) "Unresolved Problems of the Modern World"; (2) "Connecting with Past Learnings: The Rise of Democratic Ideas"; (3) "The Industrial Revolution"; (4) "The Rise of Imperialism and Colonialism: A Case Study of India"; (5) "World War I and Its Consequences"; (6) "Totalitarianism in the Modern World: Nazi Germany and Stalinist Russia"; (7) "World War II: Its Causes and Consequences"; and (8) "Nationalism in the Contemporary World." Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence require-

ments of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

The International Guide to Student Achievement brings together and critically examines the major influences shaping student achievement today. There are many, often competing, claims about how to enhance student achievement, raising the questions of "What works?" and "What works best?" World-renowned bestselling authors, John Hattie and Eric M. Anderman have invited an international group of scholars to write brief, empirically-supported articles that examine predictors of academic achievement across a variety of topics and domains. Rather than telling people what to do in their schools and classrooms, this guide simply provides the first-ever compendium of research that summarizes

what is known about the major influences shaping students' academic achievement around the world. Readers can apply this knowledge base to their own school and classroom settings. The 150+ entries serve as intellectual building blocks to creatively mix into new or existing educational arrangements and aim for quick, easy reference. Chapter authors follow a common format that allows readers to more seamlessly compare and contrast information across entries, guiding readers to apply this knowledge to their own classrooms, their curriculums and teaching strategies, and their teacher training programs.

Chronicles the history of the United States from the election of George Washington as the first president to the end of the Mexican-American War, when Wisconsin became the thirtieth state to join the Union. From Colonies to Country: Supporting Common Core with A History of US offers classroom lessons adapted from curriculum developed by the Johns Hopkins University Talent Development Secondary (TDS) program to accompany Joy Hakim's award-winning 10- volume series, A History of US. These lessons accompany volume 3 of that series, From Colonies to Country. The lessons provide opportunities for students to closely examine challenging nonfiction text (including primary source documents), engage in collaborative discussion and team learning activities, and create a variety of written products. They align with Common Core State Standards (CCSS) ELA Reading Standards for Informational Text 6-12 and Reading Standards for Literacy in History/Social Studies for grades 6-12. Several lessons feature close analysis of documents listed as exemplars in CCSS (the Preamble and 1st Amendment to the Constitution are cited as 6th-8th grade exemplars; Patrick Henry's "Give Me Liberty or

Give Me Death" speech is cited as a 9th-10th grade exemplar.) The informational text overviews for lessons in this volume are written on a 6th-9th grade reading level. Primary source documents often present challenging vocabulary, so the lessons provide additional scaffolding suggestions for these readings. All materials needed for the lesson are included in the Teacher's Manual and Student Discussion Guide. Teachers can select lessons from From Colonies to Country: Supporting Common Core with A History of US based on the time period being studied in students' history and social studies classes or on themes in the fiction they are studying. For example, the study of *The Witch of Blackbird Pond* by Elizabeth George Speare may be followed by nonfiction readings in "Salem Witch Trials." Students reading *Johnny Tremain* by Esther Forbes or other fiction about young people's vocational choices would benefit from analyzing primary source documents about apprenticeship in "Colonial Williamsburg and Southern Town Life." Novels dealing with slavery, such as *Nightjohn* by Gary Paulson, or civil rights, such as *The Watsons Go To Birmingham-1963* by Mildred Taylor

could be paired with nonfiction readings about the history of enslavement in the les-

son "From Free to Unfree." This curriculum provides multiple opportunities for English Language Arts or history/social studies

teachers to fulfill CCSS mandates with challenging, engaging lesson plans.
